**Desert Dental Staffing Has Temps! Temporary Division**

We are growing to service your staffing needs all with one phone call. Just in time for the summer vacation season, our All-Star Temp Division will be up and running starting May 19<sup>th</sup>. Under the very capable direction of Jacki Amato, we are building an All-Star Team of temporary dental workers, every one of whom will be personally interviewed and DiSC® profiled. This extra effort will allow us to share with you the temp's personality as well as their skills. We want to give you all the information we can to make your temp experience the best with Desert Dental Staffing! Jacki Amato is originally from Detroit but has been in Arizona since 1979. She has worked in the dental field for 28 years, having worked in general dentistry, orthodontics and pedodontics. Over the years, she has gained experience in just about every position in the dental office, including office manager, chairside assistant and treatment coordinator. To help you know her a bit better when you talk to her, Jacki is the mother of four children and loves walking, hiking, reading and sports.

So, whether you are looking for temporary work or need a temporary worker, give Jacki a call at 602-840-4703. We appreciate the opportunity to service your temporary staffing needs.

**Oh, one last thing. For a limited time, we are offering a special program to the first 100 individuals who sign up to temp with Desert Dental Staffing's All-Star Team. Call us today to learn the exciting details!**

**Quote of the Month**

"To give real service you must add something which cannot be bought or measured with money, and that is sincerity and integrity."

**Have You Missed Some of Our Newsletters?**

Several of you have recently told me you did not receive your newsletter. The good news is that now we know for sure there are a lot of you out there who are reading them! The bad news is that we had a glitch in our e-mail distribution system. Without your feedback, I would never have known we had a problem. Thank you for telling me. The problem is now fixed, so if you would like to see what you have missed — and there has been lots of good stuff since January — you can find back issues of the newsletters on my website.
